

Students of the Light (SOTL) is a Non-Governmental Organization incorporated in Colombia as "Corporación Estudiantes de la Luz". It is composed of children, mostly Indigenous and Afro-Colombian, whose families are displaced from the four-decade long civil war. Colombia has more than 3,000,000 displaced, second to Sudan, but sadly few people are aware. SOTL is a special place for the children, who enter due to malnutrition, suffer from child abuse, or may not have family. At the home, located in a rural area outside of Medellín, Antioquia, the children receive a nutritious diet, attend local schools, and work with human values: peace, non-violence, rectitude, love, and truth.

Since 2005 we have worked directly with SOTL and its director Maria Felisa Mosquera to help make a difference in the lives of the children.

Thank you for your support.
